DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12 June 2008 has been entered.

Information Disclosure Statement

2. The information disclosure statements (IDS) submitted on 12 June 2008, 25 July 2008 and 12 August 2008 are being considered by the examiner.

Allowable Subject Matter

3. Claims 1-6 and 31-50 are allowed over the Prior Art of record.

4. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claim 1 is the inclusion of the specific limitation of *shields disposed long a sensing device and electrodes disposed on the interior surfaces of the shields* (emphasis added) in a logging tool (i.e. employed in a wellbore or borehole), wherein the sensing device has all of the limitations recited in combination. As to independent claims 31 and 41, the specific limitations of *a plurality of shields, each shield comprising a conduit through which fluid may flow and having a plurality of electrodes therein* (emphasis added) in combination

Art Unit: 2856

with an inspection tool to be employed in a wellbore or borehole in combination with other recited elements. None of the Prior Art teach these specific limitations. The Prior Art only discloses overall shielding around different types of flow measurement devices, typically only applied to the measurement of flow through a pipe/conduit, with electrodes mounted on the outside thereof, however, none of the Prior Art disclose the specific limitations emphasized above in combination with the other recited elements in the independent claims. The closest related art is the Applicant's own Patents, however, there are no teachings or disclosures for the specific limitations emphasized above in combination with the other recited elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
